Panama City, Fla.— The Florida Department of Health in Bay County (DOH-Bay) received confirmation of one additional case of COVID-19. The Bay County resident is a 21-year-old female. Bay County’s total diagnosed COVID-19 cases now stands at 133, including five non-resident cases.

DOH-Bay is conducting the contact investigation and working to identify and notify individuals who need to self-monitor for symptoms for 14 days. Contact investigations are a critical way for staff epidemiologists to track and prevent the spread of disease.

Bay County’s overall COVID-19 positive testing rate is 3 percent. Of the 4,747 tests processed, 4,612 tests are negative. Four Bay County residents, or 3 percent of all positive Bay County cases, have died from COVID-19. A total of 14 Bay County residents, or 11 percent of all cases, have been hospitalized with COVID-19.

Data is preliminary and subject to change based on public health investigations.
