Panama City, Fla.— Bay County's total diagnosed COVID-19 cases now stands at 157. This includes 150 Bay County residents and seven non-Florida resident cases. The Florida Department of Health in Bay County (DOH-Bay) received confirmation of five additional cases of COVID-19. These include a 26-year-old male, a 31-year-old female, a 40-year-old female, a 40-year-old male, and a 47-year-old male. There are two new hospitalizations.

DOH-Bay is conducting the contact investigation and working to identify and notify individuals who need to self-monitor for symptoms for 14 days. Contact investigations are a critical way for staff epidemiologists to track and prevent the spread of disease.

Bay County's overall COVID-19 positive testing rate is 2.7 percent. Of the 5,750 tests processed, 5,590 tests are negative. Four Bay County residents, or 3 percent of all positive Bay County cases, have died from COVID-19. A total of 21 Bay County residents, or 14 percent of all cases, have been hospitalized with COVID-19.

Data is preliminary and subject to change based on public health investigations.

Addresses of Bay County residents	150
