Panama City, Fla.— The Florida Department of Health in Bay County (DOH-Bay) confirmed today that an 83-year-old male, a 78-year-old male, and a 79-year-old male have passed away. Eight Bay County residents, or 1 percent of all positive Bay County cases, have died from COVID-19.

DOH-Bay offers condolences to the latest victims' families and will continue to work diligently with our community partners to prevent the spread of COVID-19.

DOH-Bay also received confirmation of 65 additional cases of COVID-19, bringing the total cases to 1,107 including 1,068 residents and 39 non-residents. A total of 51 Bay County residents, or 5 percent of all cases, have been hospitalized with COVID-19. Bay County's overall COVID-19 positive testing rate is 10 percent. Of the 10,778 tests processed, 9,648 tests are negative.

Demographics for today's confirmed cases: Female (63), Male (38), Female (48), Male (78), Female (28), Male (59), Male (43), Female (25), Male (13), Female (33), Male (34), Male (28), Female (23), Male (79), Male (16), Male (22), Female (35), Male (18), Male (41), Female (16), Male (21), Female (37), Female (52), Female (38), Male (24), Male (31), Male (29), Male (40), Male (46), Male (35), Male (49), Female (26), Female (38), Female (45), Male (51), Female (52), Female (36), Female (49), Male (45), Male (47), Male (28), Female (24), Female (34), Female (17), Female (58), Male (21), Male (52), Female (26), Male (44), Female (47), Male (67), Male (44), Female (24), Male (34), Male (68), Female (48), Female (57), Female (57), Female (66), Female (49), Female (50), Female (50), Female (69), Female (63), and a Male (65). There is one non-Florida resident case.

Prevention

Protect the vulnerable by avoiding the Three Cs: Closed Spaces, Crowded Places and Close-Contact Settings and by wearing a mask in public:

1. **Closed Spaces.** Avoid closed spaces with poor ventilation that could allow contagious droplets to linger in the air.
2. **Crowded Places.** Avoid crowded places with many people nearby; the greater the number of individuals in an area, the greater the chances of COVID-19 spreading from person-to-person.
3. **Close-Contact Settings.** Avoid close-range conversations and stay at least six-feet from others.

Testing

DOH-Bay is now testing anyone with symptoms of COVID-19. For screening, please call DOH-Bay at (850) 872-4455 from 8 a.m. to 5 p.m. Monday through Friday and follow the prompts. Testing is by appointment only. Symptoms of COVID-19 include fever, cough, shortness of breath, chills, muscle pain, new loss of taste or smell, vomiting or diarrhea, and/or sore throat. The CDC has a symptom checker

available at [CDC.gov/coronavirus](https://www.cdc.gov/coronavirus). For additional testing options and information, visit [Bay.FloridaHealth.gov](https://www.bay.floridahealth.gov).

COVID-19 Question of the Day

Where can I find information on places to be tested?

Click [here](#) to get information on where you can get tested in Bay County.

Additional Data

The state provides a report detailing surveillance data for every Florida county, which is available [here](#).

In order to make the daily COVID-19 report easier to download and more accessible, the daily report will now separate case line data in a separate PDF. Both reports will continue to be updated daily. The case line data report is available [here](#).

Florida long-term care facility data:

- The list of long-term care facilities with active COVID-19 cases is available [here](#).
- The list of long-term care facilities with deaths is available [here](#), which is updated weekly.

The antibody COVID-19 test results report will be provided once a week and contains county, race and lab information on antibody COVID-19 tests conducted in Florida. The report for antibody tests conducted by private health care providers is available [here](#) and the report for antibody tests conducted at state-supported COVID-19 testing sites is available [here](#).

The Agency for Health Care Administration added an additional tab to the [Hospital Bed Capacity Dashboard](#) to reflect hospitalizations with the primary diagnosis of COVID-19.

More information on a case-by-case basis can also be found [here](#).

For more Information on COVID-19
