

FOR IMMEDIATE RELEASE April 24, 2020

**Contact: Joint Information Center on COVID-19 for the Bay County at (850) 329-8496,
Heather.Kretzer@FLHealth.gov**

BAY COUNTY ISSUES UPDATE ON COVID-19

PANAMA CITY, Fla. — Bay County is responding to COVID-19. In an effort to keep Bay County residents and visitors safe and aware regarding the status of the virus, the Bay County Joint Information Center will issue daily updates. The Florida Department of Health has launched a [COVID-19 dashboard](#) that will be updated twice daily. We also encourage all Floridians to take the COVID-19 Community Action Survey by visiting www.StrongerThanC19.com

Bay County's total COVID-19 cases is at 63, including 62 residents and one non-resident. While Bay County's testing is increasing, the percent of those testing positive for COVID-19 overall is 6%. Of the 1,020 tests processed, there are 950 negative results. There are two deaths in Bay County from COVID-19. The total hospitalizations count is at ten including nine residents and one non-resident.

There are currently two long-term care facilities in Bay County that have or have had positive cases of COVID-19. The Florida Department of Health has published the list at FloridaHealthCOVID19.gov. [The twice daily COVID-19 report also includes information by county about](#) cases and deaths related to staff or residents in long-term care facilities. There have been two residents or staff in long-term care facilities that have tested positive for COVID-19.

The addresses of the 62 positive Bay County residents include; 37 in Panama City, 12 in Panama City Beach, one in Southport, five in Lynn Haven, one in Parker, three in Youngstown, one in Tyndall Air Force Base, and two in Callaway. The non-resident case is from Texas.

Age, gender, race, and ethnicity data is available on the dashboard. Zip code level case numbers are also available. The dashboard is updated twice daily around 10:30 am and 5:30 pm. For more detail on Florida resident cases, please visit the live DOH Dashboard [here](#). More information on a case-by-case basis can also be found in the Daily Report at FloridaHealthCOVID19.gov.

Bay District Schools

Bay District Schools continues with our food delivery/distribution effort. We are now working towards continuation of the plan throughout the summer. Graduation plans continue with special recognitions for the Class of 2020. Teacher Appreciation Week is coming up in May, virtual recognition is in the planning/preparation stages.

Mask Kits from Gulf Coast State College Available and Tutorial

Gulf Coast State College has created more than 7,500 community mask kits. These are available in packs of 20 at JOANN, 413 East 23rd Street Panama City and at Marie's Fabrics & Notions, 1501 Mulberry Ave, Ste 2, Panama City, FL 32405

JOANN store information: <https://stores.joann.com/fl/panama-city/2298/>
Marie's: (850) 784-4848

Watch this video tutorial from Gulf Coast State College: <https://www.youtube.com/watch?v=aSMpfJ8-TbU>

COVID-19 Cleaning and Disinfectant Chemical Exposure Precautions

Reports of exposure to cleaners and disinfectants to poison centers increased substantially in March 2020 corresponding with the rise in #COVID19 cases. Learn more about these reports and how to safely use cleaning chemicals: <https://bit.ly/3eBv2d5>.

For Poisoning Emergencies Call 1-800-222-1222 V/TTY. Text POISON to 797979 to add poison control as a contact in your phone.

TESTING

Stop the spread and call ahead. Please review the criteria for testing for community-based testing sites below. There is no out of pocket costs for testing at any of these sites.

The Florida Department of Health in Bay County is using the CDC guidance for testing. We are able to test persons who are in Priority 1 or Priority 2 as listed below. Call (850) 872-4455 for screening and an appointment.

Priority 1

- Hospitalized patients
- Healthcare facility workers with symptoms

Priority 2

- Long-term care facility patients with symptoms
- 65 years of age and older with symptoms
- Underlying conditions with symptoms
- First responders with symptoms

Private labs, including Ascension Sacred Heart Medical Group and PanCare Health, can also test CDC Priority 3.

Priority 3

- Critical infrastructure workers with symptoms
- Individuals who do not meet any of the above categories with symptoms
- Healthcare facility workers and first responders
- Individuals with mild symptoms in communities experiencing high numbers of COVID-19 hospitalizations

For screening with Ascension Sacred Heart Medical Group call (850) 746-2684. If you meet the criteria an appointment will be scheduled. Testing will be on Tuesdays and Thursdays from 9 am – 1 pm at Tommy Oliver Stadium in Panama City.

In addition to CDC priorities 1, 2, and 3, PanCare Health is testing at-risk groups who are asymptomatic as follows:

- Residents in long-term care facilities
- Persons who are 65 years and older
- Persons with underlying health conditions

Call PanCare Health's COVID-19 hotline at ((850) 215-4181 Monday – Friday from 9:00 am – 4:00 pm for screening. If you are eligible for testing, you will be given an appointment and instructions. For more information visit <https://pancarefl.org/covid-19>.

If you don't meet the criteria for testing, please consult your medical care provider for instructions. Most people who get sick with COVID-19 will have only mild illness and are able to recover at home without medical care.

If you develop these emergency warning signs for COVID-19, get medical attention immediately.

- Difficulty breathing or shortness of breath
- Persistent pain or pressure in the chest
- New confusion or inability to arouse
- Bluish lips or face

For more information on what to do if you think you were exposed to COVID-19, visit [FloridaHealthCOVID19.gov/exposure](https://www.floridahealth.gov/exposure).

BEACHES

Bay County and Panama City Beach beaches will be open beginning Friday, April 24 from 6:00 am to 9:00 a.m. and 5:00 p.m. to 8:00 p.m. There are no limitations to activities or to what people can bring to the beach. In accordance with Governor DeSantis' executive order, vendors considered non-essential are not allowed to operate on beaches. Violators face up to a \$500 fine and/or arrest.

People who are 65 and over or living with underlying health conditions should continue to follow the safer at home public health advisory. Continue to practice social distancing. Do your part, stay 6 feet apart. Keep groups to 10 persons or less. Pack hand sanitizer with at least 60% alcohol. Avoid touching your face.

For more information visit <https://www.cdc.gov/coronavirus/2019-ncov/daily-life-coping/visitors.html>.

CLOTH FACE COVERS/MASK

Wearing a cloth face covering CORRECTLY can help prevent the spread of COVID-19 to others when you go out on essential trips.

Your cloth face covering should:

- ✓ Reach above the nose, below the chin, and completely cover the mouth and nostrils
- ✓ Fit snugly against the sides of the face
- ✓ Be made of multiple layers of fabric that you can still breathe through
- ✓ Be able to be laundered and machine dried without damaging the material or shape

When removing your face mask, individuals should be careful not to touch their eyes, nose, and mouth when removing their face covering and wash hands immediately after removing.

If you have a child, remember those under age 2 should not wear a face covering.

For information visit <https://www.cdc.gov/coronavirus/2019-ncov/prevent-getting-sick/diy-cloth-face-coverings.html>.

CARING FOR CHILDREN

Based on available evidence, children do not appear to be at higher risk for COVID-19 than adults. While some children and infants have been sick with COVID-19, adults make up most of the known cases to date.

It's not known yet whether some children may be at higher risk for severe illness, for example, children with underlying medical conditions and special healthcare needs. There is more to learn about how the

disease impacts children. You can learn more about who is most at risk for health problems if they have COVID-19 infection on [Are You at Higher Risk for Severe Illness](#).

Read the full guidance here: <https://www.cdc.gov/coronavirus/2019-ncov/daily-life-coping/children.html>

CARING FOR PETS

Until we learn more about how this virus affects animals, treat pets as you would other human family members to protect them from a possible infection.

- Do not let pets interact with people or other animals outside the household.
- Keep cats indoors when possible to prevent them from interacting with other animals or people.
- Walk dogs on a leash, maintaining at least 6 feet (2 meters) from other people and animals.
- Avoid dog parks or public places where a large number of people and dogs gather.

There is a small number of animals around the world reported to be infected with the virus that causes COVID-19, mostly after having contact with a person with COVID-19. Talk to your veterinarian if your pet gets sick or if you have any concerns about your pet's health.

Read the full guidance here: <https://www.cdc.gov/coronavirus/2019-ncov/daily-life-coping/animals.html>

HOUSEHOLDS LIVING IN CLOSE QUARTERS

This guidance is intended for people living together in close quarters, such as people who share a small apartment, or for people who live in the same household with large or extended families.

Read the full guidance here: <https://www.cdc.gov/coronavirus/2019-ncov/daily-life-coping/living-in-close-quarters.html>

HEALTH CARE

Hospitals

Bay County's hospitals are ready and willing to serve your emergency care needs. Ascension Sacred Heart Bay and Gulf Coast Regional Medical Center want the community to know that their emergency rooms are safe. They are following CDC guidelines to keep you and your family protected from COVID-19. They say they are seeing persons who are coming in for care later than they should and they are concerned for the well-being of the community members they serve. If you have an emergency, call 911 or go to the emergency room at either hospital.

Gulf Coast Regional Medical Center is offering a special website for COVID-19. Visit <https://gcmc-pc.com/covid-19/index.dot> for a COVID-19 self-assessment, information on visitation, and other COVID-19 resources.

Ascension Sacred Heart Bay also has a special website for COVID-19 available at <https://healthcare.ascension.org/covid-19>. There you will find information on their visitation policies and education on COVID-19.

Hospitals are not testing sites but are testing their patients that meet criteria for COVID-19.

Mental Health

The outbreak of coronavirus disease 2019 (COVID-19) may be stressful for people of all ages. Fear and anxiety about the unknown can sometimes feel overwhelming to adults and children. Coping with stress will make you, the people you care about, and your community stronger. If you, or someone you care about, are feeling overwhelmed with emotions like sadness, depression, or anxiety, or feel like you want to harm yourself or others call Bay County's Crisis line at (850) 522-4485.

Mental health providers in Bay County are open and available to serve your needs, primarily through telehealth options.

More information from the CDC: <https://bit.ly/2XLPq57>

Bay County Sheriff's Office

The Bay County Jail has an additional method to "visit" an inmate. By going on a website or calling a number, families and friends of inmates can visit from a home computer or using a mobile device. It does cost money, so the original video visitation is still available in the lobby of the Jail, which remains open. It is hoped the new method will decrease traffic into the jail.

Watch for COVID-19 scams. 1) There is not FDA approved home testing kit for COVID 19. Do not buy them. 2) Do not give personal information or click on a link or open an attachment in an email sent by the CDC. The CDC will not send you an unsolicited email. 3) Do not give to COVID-19 related fundraising events or charities you have never before encountered. Validate all charities before you give. 4) The IRS will not be calling the American public to confirm bank account numbers to facilitate the disbursement of COVID-19 relief checks.

The sandy beaches of Bay County are closed. The exception is property owners. If someone owns waterfront property, whether directly or through a property owners association, they can be on the sandy beach down to the high water line. Property owners are not allowed in the water right now. Boats are allowed in the water. Surfers are allowed in the water if they arrive and leave by boat and don't surf to the sand. Property owners are allowed to sit on the sand and engage in recreational activities, as long as they are not in groups of 10 or more.

ORDERS

Bay County

The Bay County Board of County Commissioners convened on March 17, 2020 where they voted 5-0 to declare a Local State of Emergency (LSE) (Resolution #3700) for Bay County as part of our response to COVID-19.

The Bay County Emergency Management Division is at a Level I – Full Virtual Activation supporting the Department of Health in Bay County.
