**Panama City, Fla.** – The City of Panama City is reporting two separate releases totaling approximately **12,750 gallons of raw sewage**. This is due to two lift stations overflowing, one at **1710 Business Highway 98** and one at **818 East 7<sup>th</sup> Court**. The releases entered **Watson Bayou**.

Sewage contamination of water can expose swimmers to **intestinal viruses, bacteria, and parasites**. Swimming in the water may cause **symptoms like food poisoning** with vomiting and diarrhea. **Infection is possible in open cuts and wounds** that come in contact with the water.

The Florida Department of Health in Bay County, DOH-Bay, **advises against swimming in Watson Bayou** from **East 8<sup>th</sup> Street south to East 3rd Street until further notice**. The **City of Panama City will test** the water and share results with the Florida Department of Environmental Protection and the Florida Department of Health in Bay County. **Once levels are safe, the advisory will be lifted.**

For more information, contact the DOH-Bay's Environmental Health office at 850-481-4806 or visit [Bay.FloridaHealth.gov](http://Bay.FloridaHealth.gov).
